Bibliographies and Reference Works Pertaining to the Soviet Union

***Guide to Soviet Bibliographies.** A Selected List of References. Compiled by John T. Dorosh. 1950. v, 158 p. Price $1.30. L. C. Card, 50-62955

Lists separately published bibliographies issued since 1917 in Russian or relating to Russia and available in the Library of Congress. Contents: Bibliography (theory, history, use). Bibliography of bibliographies. General bibliographies. Children's books. Dissertations. Films. Periodicals and newspapers. Agriculture—plant and animal industry. Education. Fine arts. Geography. Anthropology. Folk-lore. History. Archaeology. Language and literature. Law. Medicine. Military affairs. Music. Philosophy. Religion. Political science. Science. Social sciences. Technology. Author and subject indexes.

†Serial Publications of the Soviet Union, 1939–1951. A Preliminary Checklist. Compiled by Rudolf Smits. 1951. ix, 316 p. Price $1.50. L. C. Card, 51-61660

Lists all serial publications known to have appeared in the U. S. S. R. in 1939 or later. Gives Library of Congress holdings and call number of each publication, and indicates other American and Canadian libraries having the serials in their collections. Subject guide to the serials is included at end of the volume.

Preliminary Checklist of Russian, Ukrainian and Belorussian Newspapers Published Since January 1, 1917, Within the Present Boundaries of the U. S. S. R. and Preserved in United States Libraries. A Working Paper. Compiled by Paul L. Horecky. 1952. iv, 97 p. (Stock exhausted)

Lists all post-Revolution Russian newspapers in the Library of Congress and to a limited extent in other libraries in the United States. Includes holdings of each newspaper in the Library of Congress. Arranged alphabetically by places of publication, and gives the following bibliographical information: place of publication, title of newspaper, issuing body, frequency and date of establishment, and changes in the location, title, frequency or issuing body.

***Study and Teaching of Slavic Languages.** A Selected List of References. Compiled by John T. Dorosh. 1949. vi, 97 p. Price $0.65. L. C. Card, 49-45940

Partly annotated bibliography of publications suitable as material for the study and teaching of Bulgarian, Czech, Polish, Russian, Church Slavic, Serbo-Croatian, Slovak, Slovenian, Ukrainian, White Russian and other Slavic languages. Arranged by language, with the following subject arrangement: Periodicals, societies, etc. General works. Study and teaching. Grammar. Readers and chrestomathies. Conversation and phrase books. Phonology. Orthography. Morphology. Inflection and accidence. Parts of speech. Syntax and style. Versification. Etymology. Dictionaries. Dialects.

***Soviet Geography.** A Bibliography. Edited by Nicholas R. Rodionoff. 1951. xx, 668 p. In two parts. Part 1: U. S. S. R.—Geography by Subject. Price $2.35. Part 2: Administrative, Natural and Economic Regions. Price $2.25. L. C. Card, 51-62891

Extensive bibliography listing over 4,000 titles of most important works on geography of the Soviet Union, most of which have been published since 1917. Contents: *Part 1.* Geographical science. General descriptions. Expeditions, explorations and discoveries. Historical geography. Physical geography. Economic geography. Political and military geography. Atlases and cartography. Bibliography and blobibliography. *Part 2.* Russian Soviet Federated Socialist Republic. Karelian S. S. R. Baltic Constituent Republics. White Russian S. S. R. Moldavian S. S. R. Ukrainian S. S. R. Transcaucasian Constituent Republics. Kazakh S. S. R. Asiatic Constituent Republics. Author and subject indexes.

Electric Power Industry of the U. S. S. R. An Annotated Bibliography. Compiled by Elizabeth G. Dorosh and Nicholas R. Rodionoff. Edited and annotated by John D. Filippoff. 154 p. (In press)

Contents: Bibliographies and indexes. Periodicals. Transactions. General reference publications. Power engineering. Economics and operation. Steam-power engineering equipment. Hydro-power engineering and equipment. Electric power equipment. System control and protection. Power transmission. Power distribution. Individual power plants, systems and projects by regions. Electrification and economic planning. Author and subject indexes.

Manufacturing and Mechanical Engineering in the Soviet Union. A Bibliography. Compiled by Gisella R. Lachman. 234 p. (In press)

Contents: General information. Industrial management. Principles of mechanical engineering. Machine elements. Machine shops. Metal cutting. Machine tools and tools. Surfaces. Rolling and rolling mills. Founding and foundries. Pattern-making machinery. Forging, stamping, punching and pressing work and equipment. Metallography. Heat treatment. Electricity in metal working. Welding. Electric and gas welding and cutting. Woodworking machinery. Hydraulic machinery. Pneumatic machinery. Filters and separators. Centrifuges. Steam engineering. Miscellaneous engines. Hoisting and conveying machinery. Factory transportation. Excavators. Precision machinery and instruments. Standards and standardization. Periodicals and serial publications. Handbooks. Encyclopedias. Catalogs, price-lists and directories. Dictionaries. Bibliographies and blobibliographies. Author index.

***Soviet Transportation and Communications.** A Bibliography. Compiled by Renee S. Janse. 1952. xv, 330 p. Price $2.25. L. C. Card, 52-60824

Vol. 5, No. 11

THE LIBRARY OF
WASHINGTON

INTRODUCTORY NOTE

The MONTHLY LIST OF RUSSIAN ACCESSIONS is a record of the publications in the Russian language issued in and outside the Soviet Union that are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, Soviet publications printed in other languages spoken in the Soviet Union are also included. It consists of four parts.

Part A lists monographic literature, but no accessions published earlier than 1945 are included. To facilitate the use of this LIST by readers who are not thoroughly familiar with the Russian language, the title in the original language in Part A is preceded by its English translation in brackets. Since this procedure changes the alphabetic arrangement of title entries, cross references are given from these titles to their English translations.

Part B lists the contents of Russian periodicals, but no accessions printed earlier than 1947 are included. The table of contents of each periodical in the original language is followed by its English translation.

Part C is a subject guide to both the monographs and periodical articles listed in Parts A and B. Monographs are listed under the appropriate subject headings first, followed by the periodical articles. For the convenience of readers desiring to examine only monographs or periodical articles, the monographs are printed in slightly heavier type than the periodical articles. Since the monographs listed in the first five issues of Volume 5 of the List were not indexed in Part C, they will be indexed in later issues of the List, but without the titles being repeated in Part A. The titles of monographs are given both in the original language and in English translation, whereas titles of periodical articles are given in English translation only. In citing periodical articles the following abbreviations are used for the months of the year:

Ja	January	My	May	S	September
F	February	Je	June	O	October
Mr	March	Jl	July	N	November
Ap	April	Ag	August	D	December

Sample title: Electric action of the brain in glaucoma. L.S.Levina, G.M.Neishtadt. Vest.oft. 30 no.5:8-12 S-O '51.

Explanation: An article with title given above in English translation, written by L. S. Levina and G. M. Neishtadt, will be found in the September–October 1951 issue of *Vestnik oftalmologii*, vol. 30 no. 5, pages 8–12.

A cumulative list of the periodicals included in all the issues of Volume 5 and the abbreviations used for individual periodicals is given at the beginning of Part C in each issue of the List. The number in parentheses following each periodical title indicates the class number in which it is to be found in Part B. Symbols of American research libraries other than the Library of Congress known to have current files of such periodicals follow each periodical title in this cumulative list.

Part D is a list of monographs known to have been published recently in the USSR but not located in the Slavic Union Catalog. Translations in English of the titles are included, but since the principal purpose of this part is to serve as a want list, the translation follows rather than precedes the original title.

Except in Part C, the material is divided into 17 subject classes and is arranged alphabetically within each class. All entries are transliterated according to the usual Library of Congress system except that ligatures are omitted. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Symbols* representing other libraries indicate when items are available in those libraries. Curves ( ) around a symbol indicate that the material is available in another library but not in the Library of Congress.

Orders for microfilm or photostat copies of the listed items that are in the collections of the Library of Congress may be placed with the Photoduplication Service, Library of Congress, Washington 25, D. C.

The MONTHLY LIST OF RUSSIAN ACCESSIONS is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Price of single copies varies; subscription price, $4.25 a year domestic, $5.50 a year foreign.
